EDUCATION

- Dr. A.P.J Abdul Kalam Technical University** Lucknow, India
Bachelor of Technology - Computer Science Engineering (Data Science); CGPA: 7.1 *Sept 2023 - Sept 2027*
Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Artificial Intelligence, Machine Learning, Networking, Databases

SKILLS SUMMARY

- Languages:** Python, JavaScript, TypeScript, SQL, C++
- Frontend:** React.js, Next.js, HTML5, CSS3, TailwindCSS, TypeScript
- Backend:** Node.js, Express.js, FastAPI, REST APIs, ASP.NET Core, Entity Framework Core
- Databases:** MongoDB, MySQL, PostgreSQL, Vector Database
- AI & ML:** LangChain, Scikit-learn, HuggingFace Embeddings, Sentence Transformers, Prompt Engineering
- Soft Skills:** Self-learner, Client Communication, Problem Solving, Team Collaboration, Ownership

EXPERIENCE

- Shunyastra Technology Pvt. Ltd.** Lucknow, UP
Software Developer Intern *June 2026 - Ongoing*
 - E-commerce Platform Development:** Developed and deployed vishwakraft.com — full-stack e-commerce platform for 3D printing startup using MERN stack.
 - Business Requirements Translation:** Collaborated with business team translating client requirements into custom software features and production-ready modules.
 - REST API Backend & React Frontend:** Designed and deployed scalable REST API backend and React.js frontend following clean code guidelines and best practices.
- Nirvotech IT Solutions** Lucknow, UP
Software Engineer Intern *June 2025 - June 2026*
 - Multi-Tenant SaaS Development:** Architected scalable SaaS platform for 500+ users with full data isolation, and clean code practices meeting production standards.
 - API Microservices & Optimization:** Designed and deployed scalable REST API microservices and React.js frontend reducing inter-service latency by 40% and improving response time by 30%.
 - Real-Time Communication:** Integrated WebRTC and Socket.IO enabling real-time video conferencing for concurrent users with automated email pipelines.
- Freelance Web Developer** Remote
Website Developer *Jan 2024 - May 2026*
 - E-commerce Website Development:** Closed and delivered full-stack e-commerce website project valued at [INR]90,000 demonstrating end-to-end project ownership and client management.
 - Custom Software Solutions:** Built bespoke web applications translating client requirements into production-ready solutions with responsive design and clean architecture.

PROJECTS

- AI Movie Recommendation System (Machine Learning, NLP, Web Development):** Built intelligent recommendation engine using collaborative filtering and NLP-based content analysis. Implemented REST API backend and React frontend delivering personalized movie suggestions. Tech: Python, Node.js, React.js, TensorFlow (2025)
- Cloud-Wardrobe (Full-Stack E-commerce Platform):** Engineered 3-sided production-grade platform (Admin, Vendor, Client) on Next.js and MySQL with role-based access control. Implemented automated booking calendar, inventory management for 1000+ SKUs, and payment integration. Tech: Next.js, MySQL, Express.js, JavaScript, TypeScript (2025)
- Vishwakraft (Full-Stack E-commerce Platform):** Developed and deployed full-stack e-commerce platform for 3D printing startup using MERN stack. Built reusable React components and scalable REST API backend following clean code guidelines. Tech: Node.js, React.js, MongoDB, Express.js (2025)
- TalentSearch AI (Generative AI, RAG, Full-Stack):** Built production-grade career assistant platform using Retrieval-Augmented Generation with LangChain and FAISS for semantic resume search. Integrated multi-LLM routing (Claude, GPT, Ollama) with agentic workflows for ATS matching, mock interviews, and skill gap analysis. Tech: Python, LangChain, FAISS, FastAPI, Streamlit, HuggingFace (2025)

CERTIFICATIONS

- CodeWithHarry - The Ultimate Job Ready Data Science Course
- JP Morgan Software Engineering Job Simulation
- Generative AI Course - Udemy

ACHIEVEMENTS

- Completed Striver's 45-Day DSA Challenge solving **191** problems across arrays, trees, graphs, and DP.
- Solved **150+** problems on LeetCode covering Data Structures, Algorithms, and complexity analysis.
- Led 12-member RVP Robovamp team to 1st place at IIT Bombay International Techfest.
- Organized 15+ robotics and programming workshops training 80+ students.
